

This document contains a listing of all the latest MavenFair Product Categories. It is organized by Parent categories and their child or sub categories. This was developed as a tool to assist MavenFair Makers with their product listings. Categories will change and develop over time and this document will be updated as this occurs.

Each product must be listed in at least one (1) category and are allowed to be listed in a maximum of four (4) categories. The Main Category that we provide and suggest that everyone chooses for one of their product categories is "**CANADIAN HANDMADE**". It contains no sub-categories.

We recognize that we may not have covered every possible category required and we are more than happy to add a product category if required. Please reach out to us at support@mavenfair.ca.

CONTENTS

Select (click on) a Parent Category or Page number to navigate to the page that contains the sub-categories for each Parent Category.
